## 2009 School Corporation Annual Performance Report

### General Explanations

This is a report on the performance of schools and school corporations (districts) in your area. The goal is to give you information to tell you what progress schools are making to help students learn more.

There are additional indicators that are available to you on the Indiana Department of Education's Web site ([www.doe.in.gov/schooldata](http://www.doe.in.gov/schooldata)), including data broken out by different student subgroups, such as race, gender, income level and special education.

The data in this report have been supplied by the Indiana Department of Education and local school corporations. The report provides the most recent data available.

Indiana educators and citizens have developed higher academic standards for all students. These standards are necessary to prepare Indiana students to be successful in life, whether they go directly to higher education or to the workplace. The scores for ISTEP+ are listed under each school to reflect student progress toward those standards. For high schools, you also will see graduation rates and the percentage of graduates who plan to go on to college.

Other important information is provided, such as average attendance rates and indicators of school safety, including expulsions and suspensions.

Also included is information about your school corporation, such as how much is spent, on average, for each student; how much teachers are paid; and the percentage of corporation students who are in special education classes or gifted and talented classes.

If you have any questions about this information, you should contact your local school corporation or contact the Department of Education at 317-234-5585 or by e-mail at [apr@doe.in.gov](mailto:apr@doe.in.gov)
